H
HECKMONDWIKE
MAKERS OF FIBRE BONDED CARPETS

We have been making our renowned anti-ravel and anti-fray fibre bonded carpets since the launch of our popular Iron Duke product in 1967. With the introduction of Supacord in 1973, our carpets have been used within Education buildings for well over forty years, with Heckmondwike now considered the Education sector's number one carpet provider.

Nowadays, our carpets are also found in commercial offices, retail outlets and care environments to name a few. Whilst designs and colours have moved on since our company first formed, our commitment to manufacturing durable carpets remains the same, with all products made and despatched from our mill and factory in West Yorkshire.

MADE IN THE UK
MADE TO LAST

SUPACORD

FIBRE BONDED RANGE

Used in classrooms for over forty years, Supacord is considered the number one carpet solution for schools, colleges and universities.

WHY CHOOSE SUPACORD?

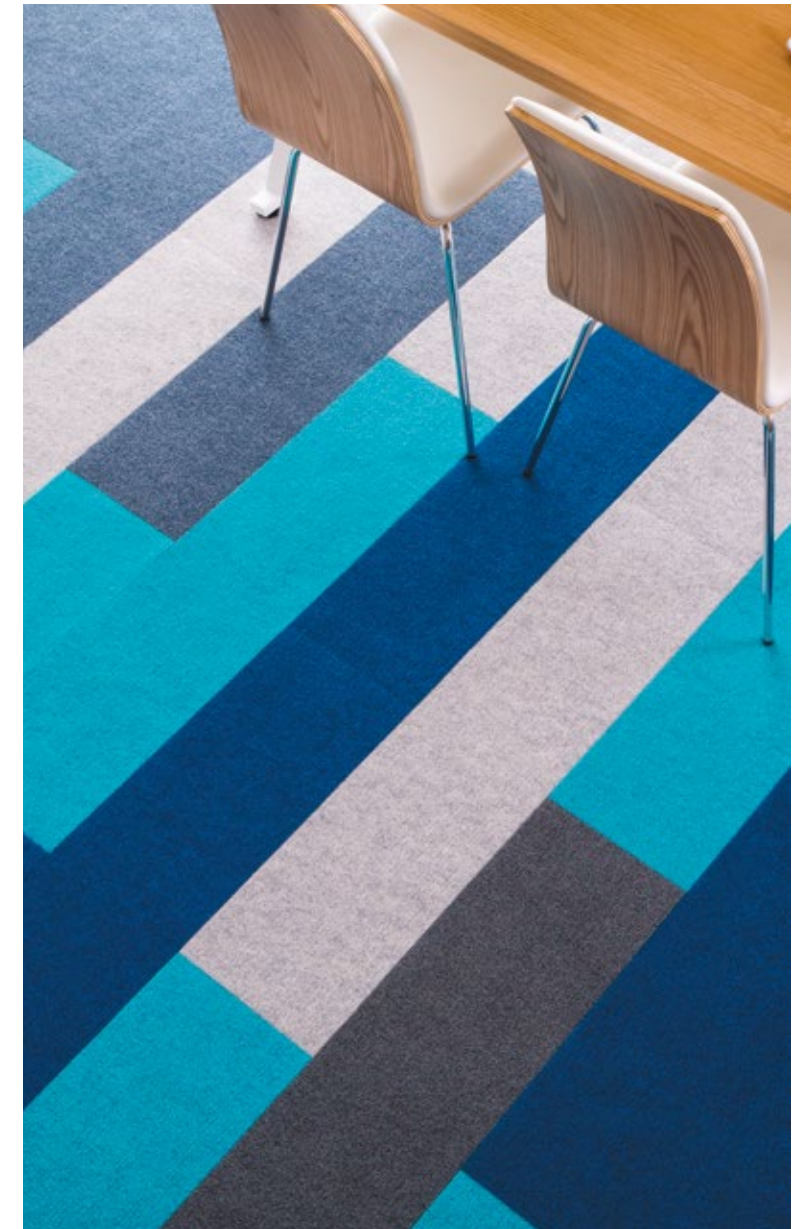

- Used in classrooms for over forty years
- A+ BREEAM Rating
- Will not ravel or fray
- Low installation and maintenance costs

SUPACORD IS PERFECT FOR:

- Schools
- Universities & Colleges
- Office Environments
- Government & Local Authority
- Museums
- Leisure

BROADRIB

FIBRE BONDED RANGE

Broadrib has a wider rib structure when compared to Supacord, creating a more defined texture within the carpet. Widely used within the education sector, Broadrib is highly durable, yet, also easy to maintain.

WHY CHOOSE BROADRIB?

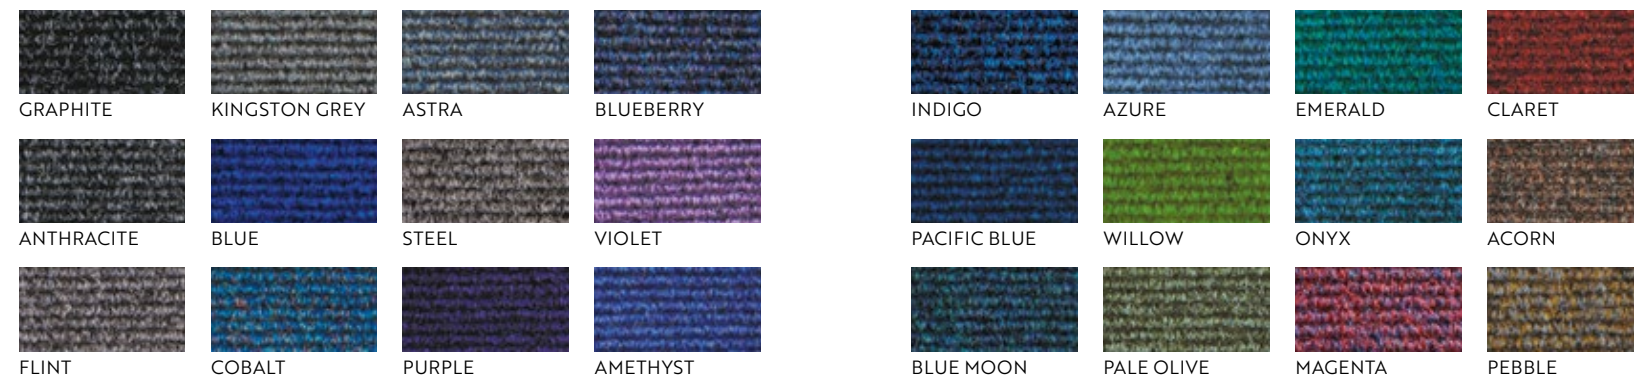

- A wider rib structure than Supacord
- A+ BREEAM Rating
- Anti-ravel and anti-fray properties
- Durable structure

BROADRIB IS PERFECT FOR:

- Schools
- Universities & Colleges
- Office Environments
- Government & Local Authority
- Retail

HOBNAIL

FIBRE BONDED RANGE

With a cobbled diamond-effect texture, Hobnail has been designed with the more demanding environment in mind. Available in a selection of striking colours, Hobnail can be installed in a wide range of building types and can complement corporate colour schemes or interior décor.

WHY CHOOSE HOBNAIL?

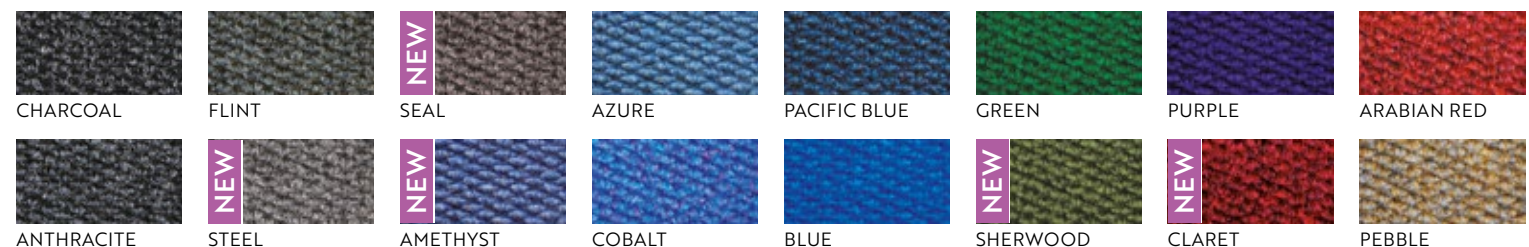

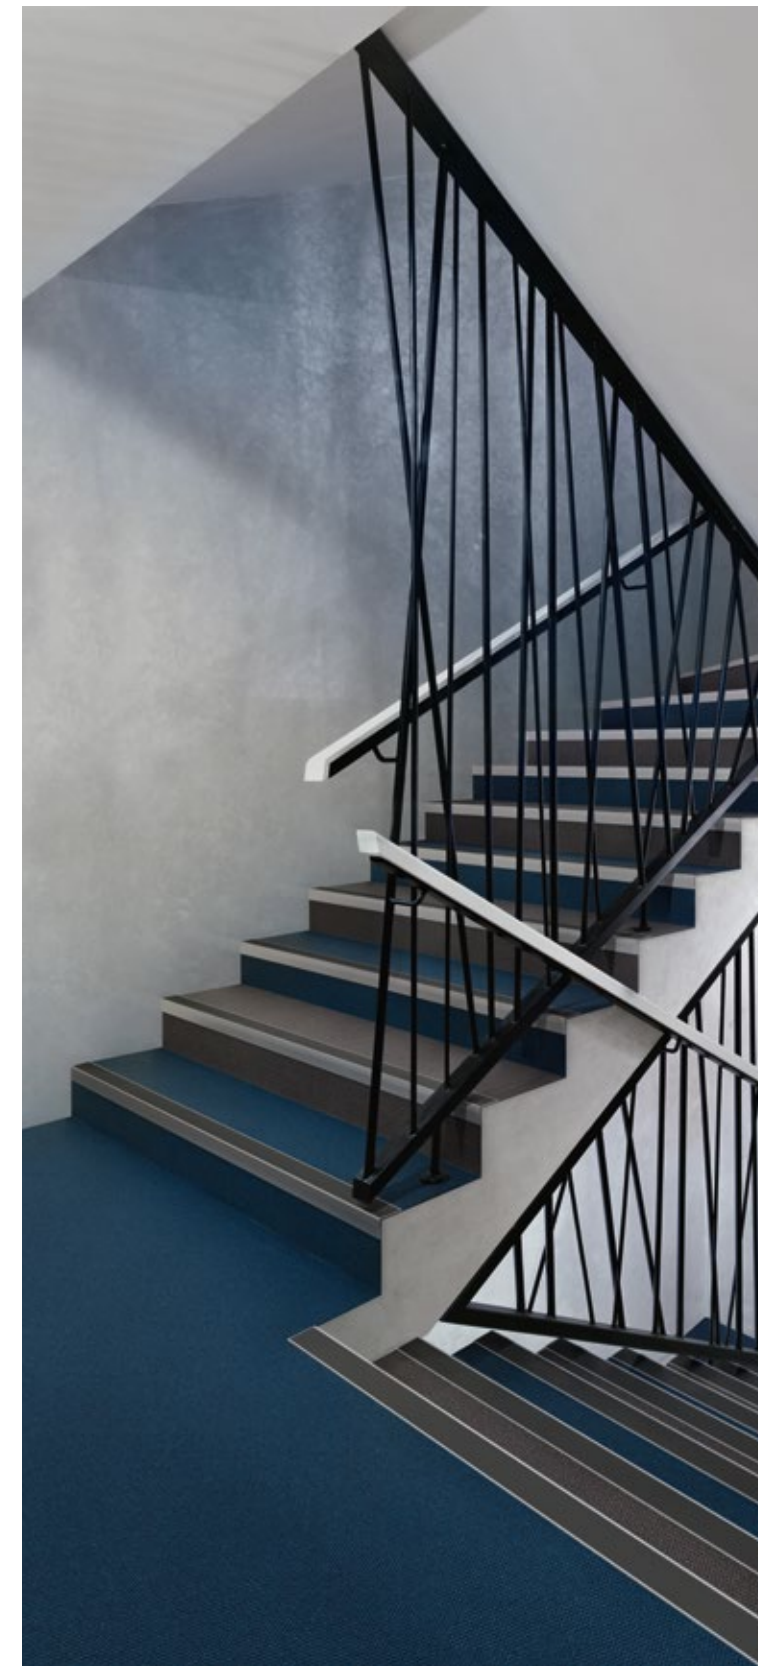

- Unique cobbled structure
- Available in sheet or as carpet tile
- Anti-ravel durable texture
- Helps lower maintenance costs

HOBNAIL IS PERFECT FOR:

- Schools
- Universities & Colleges
- Office Buildings
- Apartment Buildings
- Sports Facilities
- Leisure

For full technical specifications or samples, visit our website: www.heckmondwike-fb.co.uk

IRON DUKE

FIBRE BONDED RANGE

First manufactured in 1967, Iron Duke is the original fibre bonded carpet. Widely used within the public sector, schools and commercial offices, Iron Duke has a flat finish that can be cut in any direction, allowing the creation of unique shapes and patterns.

WHY CHOOSE IRON DUKE?

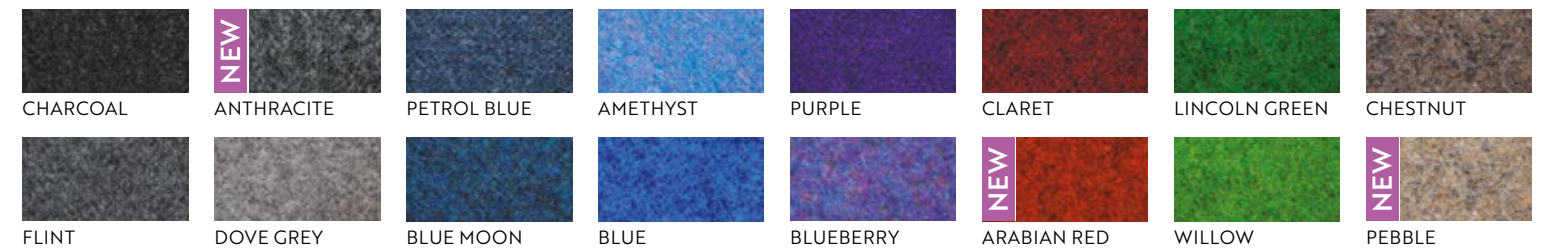

- Flat finish for multi-directional cutting
- Available in sheet or as carpet tile plank
- Anti-ravel and anti-fray properties
- Easy to install and cut on-site

IRON DUKE IS PERFECT FOR:

- Office Environments
- Schools
- Government & Local Authority
- Reception & Waiting Areas
- Leisure
- Retail

For full technical specifications or samples, visit our website: www.heckmondwike-fb.co.uk

WELLINGTON VELOUR

FIBRE BONDED RANGE

Combining a soft velour texture and high-traffic performance, Wellington Velour carpet is a popular choice for a variety of locations - from education buildings to offices and retail outlets. Available in a number of colours, Wellington Velour can create an impactful floor finish that delivers outstanding performance.

WHY CHOOSE WELLINGTON VELOUR?

- Reduces impact noise
- Soft velour finish
- Anti-ravel for optimum performance
- Easy to install and maintain

WELLINGTON VELOUR IS PERFECT FOR:

- Schools
- Nurseries & Day Care Centres
- Museums
- Office Environments

BATTLESHIP/ HIPPO

ENTRANCE & TRANSITION AREA RANGE

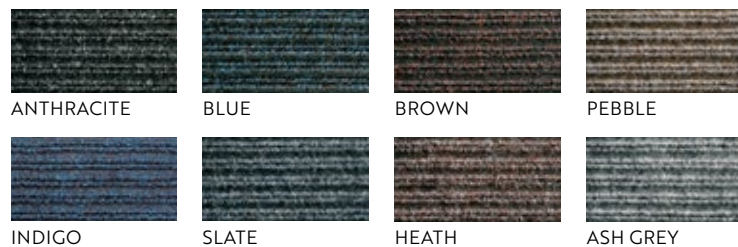

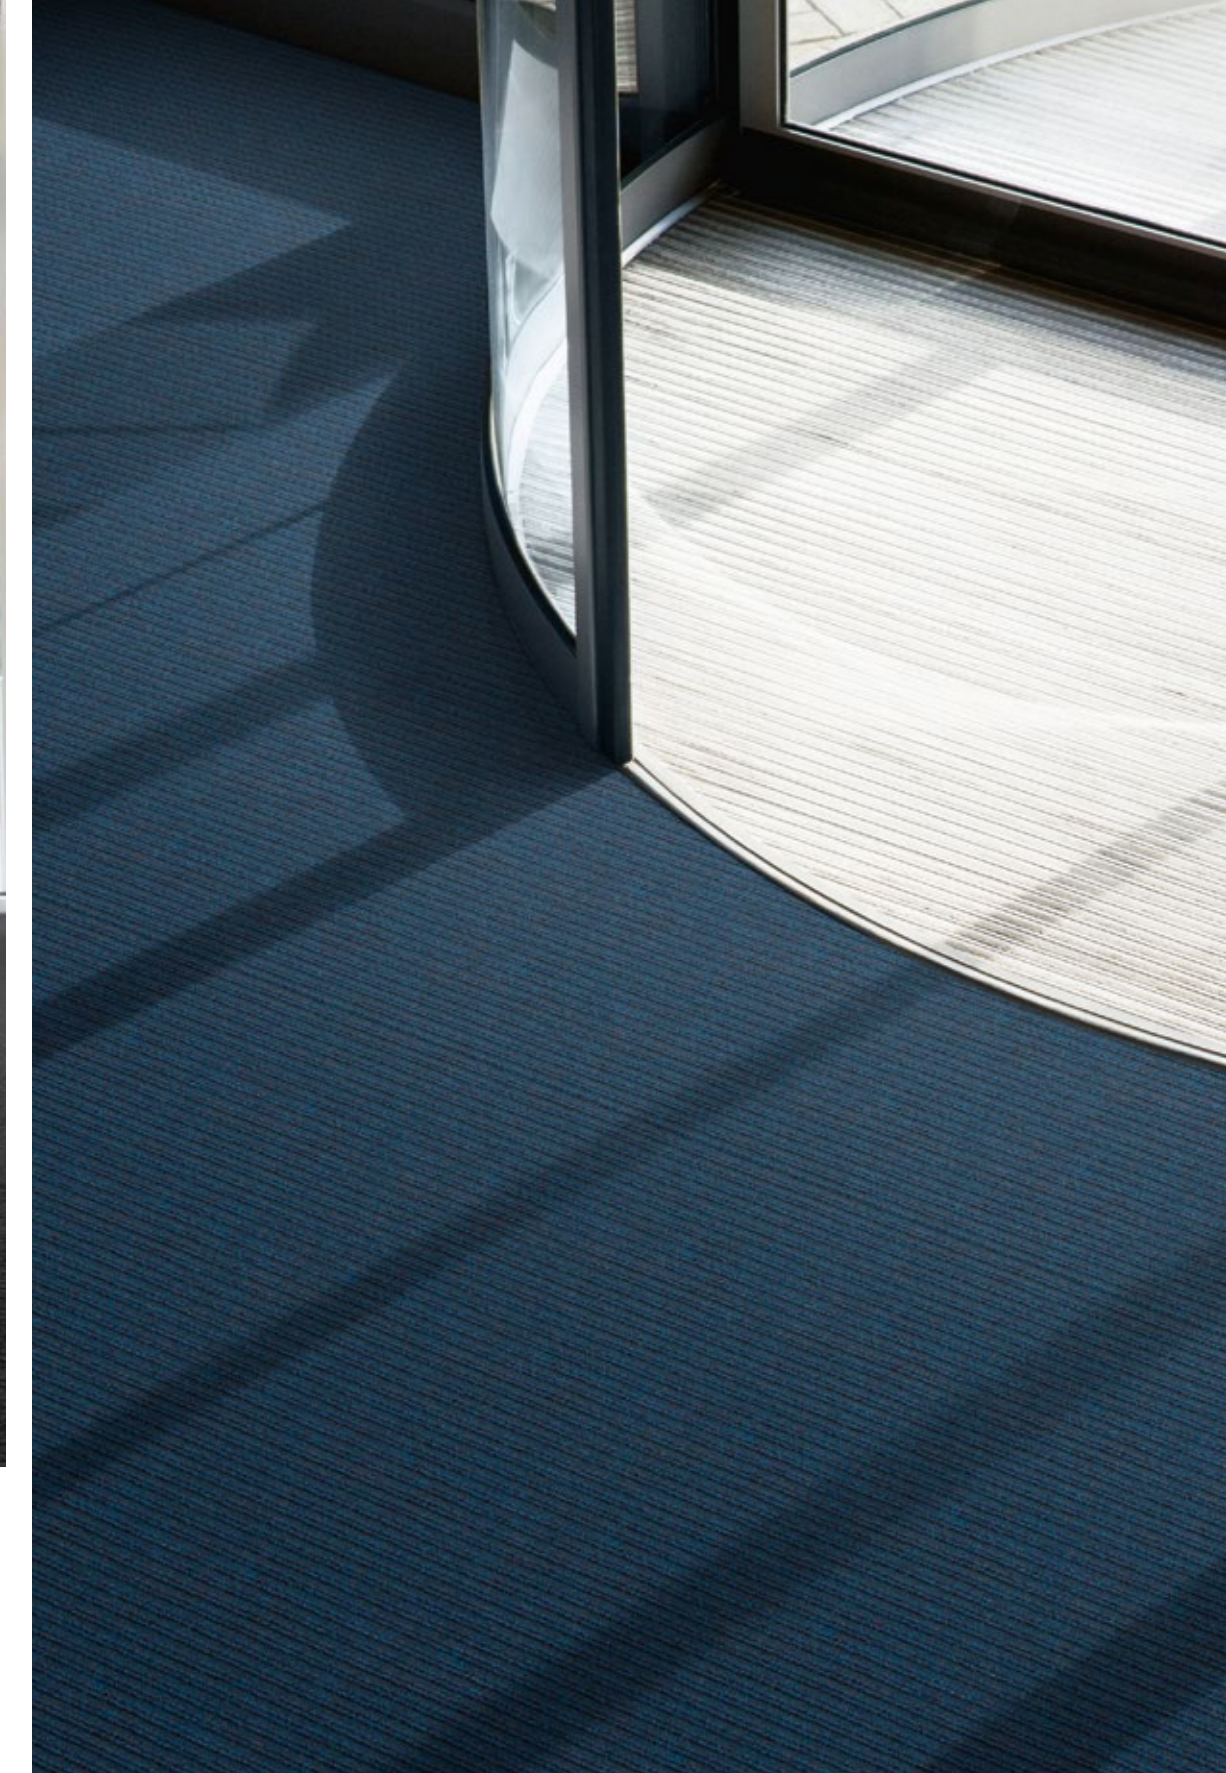

Battleship and Hippo are used extensively in education and public sector buildings. In addition, Hippo has a rubber waffle backing, allowing it to be loose laid in small areas or footwells.

WHY CHOOSE BATTLESHIP/HIPPO?

- Specifically designed for entrance areas
- Rubber waffle backing (Hippo only)
- Structure results in anti-fray properties
- Low maintenance costs

For full technical specifications or samples, visit our website: www.heckmondwike-fb.co.uk

DIAMOND

ENTRANCE & TRANSITION AREA RANGE

Diamond entrance area carpet incorporates a durable, cobbled-effect surface. Due to its extensive colour bank, Diamond is also used to create bespoke carpet designs and logo mat products.

WHY CHOOSE DIAMOND?

- Durable cobbled texture in a number of colours
- Specifically designed for use in entrance areas
- Available in sheet or carpet tile
- Will not ravel or fray

For full technical specifications or samples, visit our website: www.heckmondwike-fb.co.uk

SHEET & TILE

SHEET

BESPOKE

ENTRANCE & TRANSITION AREA RANGE

Make a lasting impression on clients, patrons or prospective students and create a bespoke carpet design or logo mat for your premises. Emblems, logos or slogans can be incorporated into a loose lay mat or inset into an entrance. Bespoke logos and designs can be created for areas up to 16m².

WHY CHOOSE BESPOKE?

- Longer-lasting alternative to printed matting products
- 21 colour options available
- Companies and schools can match their corporate colours
- Manufactured using durable Diamond carpet

For full technical specifications or samples, visit our website: www.heckmondwike-fb.co.uk

DREADNOUGHT

ENTRANCE & TRANSITION AREA RANGE

A prominent, diagonal-ribbed texture results in a highly durable surface, a popular choice for use in schools, colleges, universities and offices.

WHY CHOOSE DREADNOUGHT?

- For areas with heavy footfall
- Available in sheet or carpet tile
- Provides superb performance
- Easy to install and maintain

 SHEET  TILE

ZEPHYR

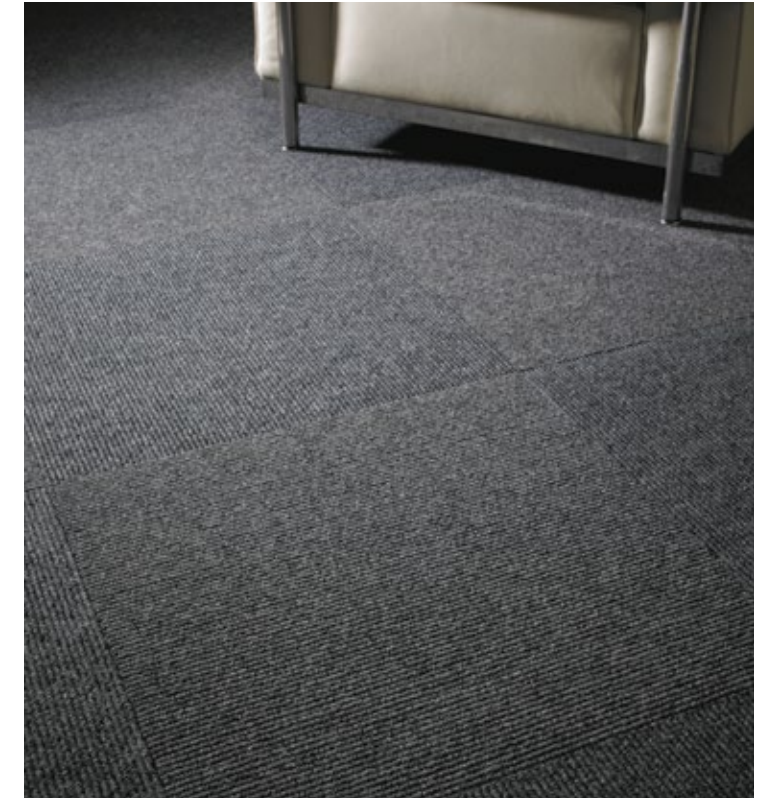

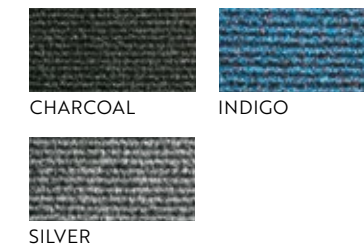

ENTRANCE & TRANSITION AREA RANGE

Manufactured with a heavier weight fibre, Zephyr is an extremely hard-wearing carpet that can be installed in entrances, corridors and transition areas.

WHY CHOOSE ZEPHYR?

- Incorporates a tight-rib design for hassle-free maintenance
- Available in sheet or carpet tile
- Easy to install
- Anti-fray and anti-ravel properties

 SHEET  TILE

VANQUISHER

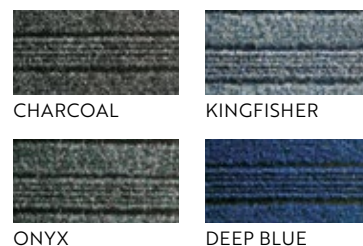

ENTRANCE & TRANSITION AREA RANGE

Vanquisher carpet provides an alternative rib and velour surface pattern.

WHY CHOOSE VANQUISHER?

- Protects internal carpets from outside soiling and wetting
- Available in four on-trend colours
- Easy to maintain and install
- A cost-effective Entrance product

 SHEET

STICKS & STONES

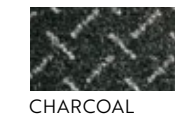

ENTRANCE & TRANSITION AREA RANGE

Sticks & Stones features an eye-catching alternating diagonal motif, creating a unique entrance carpet solution.

WHY CHOOSE STICKS & STONES?

- Combines a unique aesthetic with premium performance
- Available as carpet tile only
- Does not ravel or fray
- Low installation and maintenance costs
