# WE'RE PASSIONATE ABOUT WOOD

SWISS KRONO – A STRONG BRAND FAMILY

As a Swiss family company, we develop design solutions for sophisticated living spaces made from natural raw materials – in more than 121 countries, with expertise born from years of experience and outstanding interior and exterior results.

BY SWISS KRONO GROUP

## PARTNERSHIP

We work together with you to develop first-class solutions that truly suit your needs. We are always at your side, even after the end of a project. Your trust is what drives us.

## SWISS MADE

Our products are developed and manufactured using certified wood from sustainable Swiss forestry. This outstanding quality reflects the high demands we place on ourselves every day in order to provide you with the best possible solution.

## RESPONSIBILITY

We are dedicated to a high level of resource efficiency and renewable energy. Our strategy: complete usage of material flows, short distances, renewable energy sources and a high level of energy efficiency.

📍 For more information, please go to: [www.swisskrono.ch](http://www.swisskrono.ch)

# PREMIUMVORTEILE

aquastop

**Wasserresistente HDF-Platte für den Einsatz in Bereichen mit erhöhter Feuchtigkeit.**

Water resistant HDF coreboard suitable for installation in moist areas.

Support HDF résistant à l'eau pour des pièces à plus fort taux d'humidité.

Pannelli HDF di basso assorbimento d'acqua per l'impiego in aree con alti livelli di umidità.

Tableros HDF de baja absorción al agua para uso en áreas con altos niveles de humedad.

Placas HDF de baixa absorção de água para uso em áreas com elevados níveis de humidade.

oversize

**Übergrosse Paneelen für optische Highlights und schnelle Verlegung.**

Oversize panels for visual highlights and quick installation.

Panneaux surdimensionnés pour un bel aspect visuel et une pose rapide.

Pannelli extra grandi per creare accenti ottici e per una posa veloce.

Paneles extragrandes para destacar elementos visualmente, de colocación rápida.

Painéis sobredimensionados para destaques visuais e rápida instalação.

synchronised

**Synchronporen-Struktur für eine authentische Echtholz-Wirkung.**

Synchronised grain structure for an authentic real wood effect.

Structure à pores synchrones pour effet bois véritable authentique.

Struttura a pori sincroni per un autentico effetto vero legno.

Estructura de poros sincrónicos para un efecto de madera genuina auténtico.

Estrutura de vasos sincronizados para um efeito autêntico de madeira verdadeira.

antiscratch

**Zusätzliche Schutzschicht für die beste Kratz- und Abriebfestigkeit.**

Additional layer for the best scratch and abrasion resistance.

Couche de protection supplémentaire pour la meilleure résistance aux rayures et à l'abrasion.

Strato di protezione supplementare per una migliore resistenza ai graffi e all'abrasione.

Capa de protección adicional para mejor resistencia al rayado ya la abrasión.

Capa protetora adicional para melhor resistência a arranhões e à abrasão.

### AQUASTOP BENEFITS

**Der 48-Stunden Feuchteschutz vor Zwischenfällen im Haushalt mit Wasser und kleineren «Unfällen» von Haustieren.**

Une protection de 48 contre les incidents liquides domestiques et les «accidents» de nos amis les bêtes.

Protezione per 48 ore contro le fuoriuscite domestiche e sporcizia causati da animali domestici.

The 48 h protection against everyday household spills and pet messes.

Protección durante 48 horas contra derrames y suciedad causada por animales domésticos.

Proteção durante 48 horas contra derramamentos domésticos e sujidade provocada por animais de estimação.

 60 Boxes = 1548.10 sqft / 1997.39 pounds

# SWISS QUALITY

**DE** Die Schweizer Leidenschaft für Qualität, Präzision sowie die Liebe zum Detail sind die gelebten Erfolgswerte der SWISS KRONO AG.

Um unserem Qualitätsanspruch gerecht zu werden, nur erstklassige Produkte zu produzieren, verwenden wir ausschliesslich Rohstoffe aus sorgfältig ausgewählter Umgebung mit erneuerbaren Ressourcen. Die erklärte Mission des FSC ist die weltweite Förderung einer umweltfreundlichen, sozialförderlichen und ökonomisch tragfähigen Bewirtschaftung von Wäldern. Seit SWISS KRONO AG im Jahr 1997 diese Zertifizierung erhalten hat, wird dieser hohe Standard gelebt und in vielen Fällen sogar übertroffen\*.

Darüber hinaus setzt die SWISS KRONO AG auf Ressourceneffizienz und nachhaltige Energieversorgung. «Ein geniales Konzept» ist keine Übertreibung für unsere Systeme, die den Material- und Energiefluss steuern und verarbeiten. Diese Massnahmen reduzieren nachhaltig unsere CO<sub>2</sub>-Emissionen und verbessern den Gesamtwert unserer Holzwerkstoffe in allen Aspekten.

Zu Beginn reichte es aus, den Erfolg eines Unternehmens durch Überwachung der Produktivität und Kostenkontrolle zu gewährleisten. Ergänzend zu diesen Schlüsselfunktionen sind heute Innovation, Einzigartigkeit, Lernfähigkeit, anspruchsvolle Produkte, durchdachte Serviceangebote und das Bewusstsein für die Bedürfnisse der Kunden erforderlich, um den Erfolg sicherzustellen. All diese Aspekte werden bei SWISS KRONO AG von den Zertifizierungen ISO9001 und ISO14001 überwacht.

\* FSC-Produkte sind auf Anfrage erhältlich

**EN** The Swiss passion to quality, precision and attention to detail are SWISS KRONO AG's destiny.

In order to constantly produce first class products, we will only use materials sourced from carefully selected environments with renewable sources. The FSC's stated mission is to promote environmentally appropriate, socially beneficial and economically viable management of the world's forests. Since SWISS KRONO AG obtained the certification back in 1997, we have lived up, and in many cases exceed, this high standard\*.

Furthermore SWISS KRONO AG focuses on resource efficiency and sustainable energy supply. «An ingenious concept» would not be too strong a description of our systems that process the material and energy flow from one to another. This reduces CO<sub>2</sub> emissions and improves the overall value of wood in all aspects.

In the beginning it was enough to ensure the success of a company by monitoring productivity and cost control. Today, in addition to these key functions, innovation, uniqueness, ability to learn, sophisticated products, well conceived service offers and awareness of customers needs are required to ensure success. All these aspects are supervised by SWISS KRONO AG's ISO9001 and ISO14001 certifications.

\* FSC products are available on request

**FR** La passion suisse de la qualité, de la précision et de l'attention portée au moindre détail sont le destin de SWISS KRONO AG.

Afin de produire en permanence des produits de premier ordre, nous utiliserons exclusivement des matériaux issus d'environnements soigneusement sélectionnés avec des sources renouvelables. La mission annoncée du FSC est de promouvoir une gestion adaptée sur le plan environnemental, bénéfique sur le plan social et viable sur le plan économique des forêts du monde entier. Depuis que SWISS KRONO AG a obtenu cette certification en 1997, nous nous sommes montrés à la hauteur de ce standard élevé et nous l' avons même dépassé dans certains cas\*.

De plus, SWISS KRONO AG se concentre sur l'efficacité des ressources et un approvisionnement en énergie durable. «Un concept ingénieux» ne serait pas un euphémisme pour décrire nos systèmes qui amènent de l'un à l'autre la matière et le flux d'énergie. Il en résulte une réduction des émissions de CO<sub>2</sub> et une amélioration de la valeur globale du bois sous tous ses aspects.

Au début, la réussite d'une société tenait simplement au contrôle de la productivité et des coûts. Aujourd'hui, en plus de ces fonctions essentielles, la clé du succès réside dans l'innovation, le caractère unique, la capacité à apprendre, la sophistication des produits, la conception rigoureuse des offres de service et l'intégration des besoins des clients. Tous ces aspects sont encadrés par les certifications ISO9001 et ISO14001 de SWISS KRONO AG.

\* Les produits FSC sont disponibles sur demande

**IT** La passione svizzera per la qualità, la precisione e la cura dei dettagli sono il destino di SWISS KRONO AG.

Per fabbricare costantemente prodotti di prima qualità utilizziamo esclusivamente materiali provenienti da ambienti attentamente selezionati con fonti rinnovabili. La missione dichiarata di FSC consiste nel promuovere una gestione delle foreste mondiali adeguata dal punto di vista ambientale, socialmente positiva ed economicamente fattibile. Da quando SWISS KRONO AG ha ottenuto questa certificazione nel lontano 1997, abbiamo rispettato, e in molti casi superato, questo rigoroso standard\*.

Inoltre SWISS KRONO AG attribuisce grande importanza all'efficienza delle risorse e all'approvvigionamento energetico sostenibile. Definire «un'idea ingegnosa» i nostri sistemi che lavorano il flusso di materiale ed energia reciprocamente non è certo esagerato. Essi consentono di ridurre le emissioni di CO<sub>2</sub> e migliorare il valore globale del legno da tutti i punti di vista.

Inizialmente era sufficiente garantire il successo di un'azienda monitorando produttività e controllo dei costi. Oggi oltre a queste funzioni fondamentali per garantire il successo servono anche innovazione, unicità, capacità di apprendere, prodotti sofisticati, offerte di servizi progettate con cura e consapevolezza dei bisogni dei clienti. Tutti questi aspetti sono monitorati dalle certificazioni ISO9001 e ISO14001 di SWISS KRONO AG.

\* I prodotti FSC sono disponibili su richiesta

**ES** La pasión por la calidad, la precisión y la atención al detalle de los suizos son el destino de SWISS KRONO AG.

Con el objetivo de fabricar productos de primera calidad de forma continua, únicamente utilizamos materiales procedentes de entornos seleccionados meticulosamente con recursos renovables. La misión expresa de FSC (Forest Stewardship Council) consiste en promover una gestión de los bosques de todo el mundo que sea ambientalmente adecuada, socialmente beneficiosa y económicamente viable. Desde que SWISS KRONO AG obtuvo la certificación en 1997, hemos cumplido, y en muchos casos superado, este alto nivel de calidad\*.

Además, SWISS KRONO AG se centra en la eficiencia de los recursos y en el suministro energético sostenible. «Un concepto sofisticado» no sería suficiente para describir nuestros sistemas que procesan los flujos de material y energía de uno a otro. De esta forma se reducen las emisiones de CO<sub>2</sub> y se mejora el valor global de la madera en todos los aspectos.

Al principio, garantizar el éxito de una empresa mediante el control de la productividad y los costes era suficiente. Hoy en día, además de esas funciones esenciales, para garantizar el éxito también se requiere innovación, singularidad, capacidad de aprendizaje, productos sofisticados, ofertas de servicio bien pensadas e identificación de las necesidades de los clientes. Todos estos aspectos están bajo la supervisión de las certificaciones ISO9001 e ISO14001 de SWISS KRONO AG.

\* Los productos de FSC están disponibles previa solicitud

**PT** A paixão suíça pela qualidade, precisão e atenção ao detalhe são o destino da SWISS KRONO AG.

De forma a produzir constantemente produtos da mais elevada qualidade, utilizaremos apenas materiais provenientes de ambientes seleccionados cuidadosamente com fontes renováveis. A missão declarada da FSC consiste em promover uma gestão das florestas mundiais ambientalmente adequada, socialmente benéfica e economicamente viável. Desde a obtenção da certificação em 1997 por parte da SWISS KRONO AG, temos mantido e, em muitos casos, superado este padrão elevado\*.

Além disso, a SWISS KRONO AG centra-se na eficiência de recursos e no aprovisionamento energético sustentável. «Um conceito engenhoso» poderia servir de descrição dos nossos sistemas, cujo objetivo consiste em processar o fluxo de energia e matéria de um para o outro. Tal reduz as emissões de CO<sub>2</sub>, melhorando ainda o valor global da madeira em todos os aspetos.

Inicialmente, a monitorização da produtividade e o controlo de custos era suficiente para garantir o sucesso de uma empresa. Hoje em dia, para além destes fatores-chave, são ainda necessárias outras medidas para assegurar o sucesso, das quais fazem parte a inovação, a singularidade, a capacidade de aprendizagem, a sofisticação dos produtos, a qualidade na conceção das ofertas de serviço e o conhecimento das necessidades dos clientes. Todos estes aspetos são controlados pelas certificações ISO9001 e ISO14001 da SWISS KRONO AG.

\* Os produtos FSC estão disponíveis mediante pedido
