UZIN. THE FLOOR BELONGS TO YOU.

UZIN NC 150

Smoothing Compound

Cost effective smoothing compound for thickness up to 10 mm

APPLICATIONS:

- For standard work prior to bonding floor coverings
- On new substrates, e.g. cement screeds
- On existing surfaces in need of refurbishment

PROPERTIES:

- Very easy to rub down
- Good set strength
- For interior use only
- Low chromate content in accordance with RL 2003/53/EG

Article	Pack Size	Pallet Quantity	Coverage	Colour
72627	20 kg sack	54	Approximately 15 m ² 1 mm 5 m ² 3 mm	grey

UZIN NC 163

Renovation Smoothing Compound

Smoothing compound which can be used without priming! Renovation smoothing compound for use over old waterproof adhesive residues as well as cementitious substrates**

APPLICATIONS:

- For use on cementitious screeds or concrete
- Over old waterproof adhesive residues or smoothing compound residues
- For use on most ceramic and natural stone coverings
- Over hot water underfloor heating systems
- For interior use

PROPERTIES:

- Ready for foot traffic after 2 ½ hours
- Can be used directly on old adhesive residues
- Smooth surface
- High strength yet low stress
- Low chromate content

Article	Pack Size	Pallet Quantity	Coverage	Colour
78292	20 kg	54	Approximately 5 m ²	grey

UZIN L3 Gold

Rapid Drying Smoothing Compound

Ammonia and latex free smoothing compound for use on all types of cementitious substrates

APPLICATIONS:

- Suitable for use in sensitive environments such as schools and hospitals
- The repair and renovation of uneven floors
- For blinding old adhesive residues

PROPERTIES:

- Rapid drying
- For use on most sound and well bonded adhesive residues**
- Can be used without a primer in most cases
- Ammonia and latex free
- High compressive strength
- Very low stress

Article	Pack Size	Pallet Quantity	Coverage	Colour
71800	5 kg	128	Approximately 5 m ² at 3 mm	grey
14013	22 kg	48		

* Only available in the Republic of Ireland or Northern Ireland, while stocks last. Only a 50 cm wide 11 mm (13762) or 21 mm (14021) spike roller can be provided for every pallet of UZIN NC 150, UZIN NC 163 or UZIN L3 Gold powder. A Wolff Mixer (80070) will be provided with every 3 pallets of UZIN NC 150, UZIN NC 163 or UZIN L3 Gold powder.
